In the Opening period and all obstacles are bi-directional, except for the Teeter. Colored obstacles #2, #3, #4 (combo) and #5 may be done as an individual obstacle or combined with other obstacles to a total no greater than 7 points. If the total of any combination of obstacles after each Red (or #1) is greater than 7, a whistle will sound and scoring ceases. In the closing period, obstacles #2 thru #5 must be completed as marked then #6 and #7 (obstacles bi-directional) are to be created using the existing obstacles (including #1's if not dropped) for those exact point values. Any bars dropped in the opening will not be reset and therefore not available for points in the closing. Multiplier 1.5
